

THE DOTHAN EAGLE

Dothan's Population—1890, 320; 1900, 3,275; 1910, 7,116; 1920, 20,000—"For I heard them say, Let us go to Dothan."

DOOTHAN, ALABAMA, WEDNESDAY EVENING, MARCH 29, 1934

NUMBER 190

NEW POWER PLANT WILL BE MODERN

COMMITTEE LEFT TODAY TO INVESTIGATE SYSTEMS USED IN LARGER CITIES

Messrs. B. R. Pilcher and S. J. May left this morning for Atlanta, Columbus, Montgomery and other various cities, where they will investigate the systems used in furnishing the city with lights and water. The committee was appointed yesterday afternoon at a call meeting of the water and light committee of the city council, which met to further the move for a new power house for Dothan.

After visiting several large cities in Georgia and Alabama, and investigating the plants and systems used in each of them, they will return to the city and make their report to the water and light committee, stating which system seems best to use. The leading object of their visit will be to see which system used in the various cities will be best for Dothan and for a city of 20,000. They will decide as to which one is the most up-to-date and this system will be installed in the proposed new power house to be built here.

The plans of the proposed new plant are now laid aside until the committee makes its report as to the kind of plant to be built and the amount it will cost.

It is thought now that in a short time Dothan will have a new and altogether modern power plant and one capable of furnishing water and electric power to a city of 20,000 inhabitants.

THE WEATHER

Fair tonight and Thursday.

ANY STUMPS?

I would be pleased to take my stump puller to your place and pull your stumps to demonstrate what it will do. Let me hear from you. F. D. Williamson, 454, South Foster street, Tel. 412-2d

ULRICH ACCEPTS THE MONEY FROM DOTHAN

A letter addressed to the United Janitors of Dothan was received today from the attorney of Albert Ulrich, acknowledging receipt of the purse of \$25 sent the janitor, and expressing the appreciation and thanks of the man who had the little difficulty with Booker T in New York recently.

BUSY DAY

Yesterday was a busy day with the ladies dress goods people of Dothan. It was then that the people who handle this line of stuff got together for a Spring Opening, and the way the public of this territory responded was satisfactory.

There was a time in the history of Dothan, when an opening with the millinery and dress goods people merely meant a crowd of Dothan ladies would come down and look over the various stocks, but now, the enterprising merchants have gone out after trade in such a way, till shoppers are drawn here from the towns of this territory.

They come to Dothan for this class of goods, as they do for men's goods, because they can always get what the styles dictate, and because they can do better than they can by sending to the cities for it, for the prices are always more reasonable.

Dothan has some merchants that are a credit to any city in Alabama for their enterprising methods of doing business, and for the large and well selected stocks they carry.

CICERONIAN NOTES

The Ciceronian society held its regular meeting Monday, March 27.

Mr. Max Fortner, an old member of the Ciceronian society met with us. A third of the debaters were absent and we could not have the debate. We are always glad to have visitors with us to see what progress we are making in our society.

Estelle Green,
Ernest Walden,
Press Committee

G. W. Dennis, of route 3, was in town today and made the Eagle a visit.

CYCLONE DEATH LIST INCREASES

TWELVE MAY DIE FROM MONROE COUNTY STORM. MANY ARE DESTITUTE.

Monroeville, Ala., March 28.—It is believed now that the death list of Sunday's cyclone will include no less than a dozen persons who were caught in the path of the violent win which appears to have centered the main portion of its force on the four little towns of Jones's Mill, Manistee, Conley and Excel. Owing to the uncertain condition of several of the victims it is impossible to estimate the number whose injuries will prove fatal.

The ruin spread in the path of the storm beggars description. Furniture, clothing, pieces of lumber torn from farm houses, dead stock and poultry, twisted trees and the like which lay in the swath cut out by the storm of wind indicate the violence of the cyclone, but the suffering that has been wrought is the problem with which the people of Monroe have to deal.

Relief Committees Busy

Relief committees have been organized throughout the stricken area and those have gone to work diligently in their efforts to secure the aid which the sufferers must have, and have soon. People have quit their business affairs and are now seeking clothing and food for the victims, and the houses left untouched by the cyclone, have been turned into improvised hospitals and the physicians and surgeons in the vicinity are working untiringly to relieve the injured.

The latest reports serve only to emphasize the violence of the storm.

Byrd Family Suffers

At Excel the home of Steve Byrd is a complete wreck, the structure being splintered. Mr. Byrd, who held his baby in his arms, was thrown against the side of one of the walls of the room which he occupied and his brains crushed out, while the infant was taken from the arms of a dead father practically unscathed. Mrs. Byrd and one of her children were badly injured, but it is believed that neither will die.

McCrory Home Ruined

At Jones' Mill the family of Frank McCrory was the chief sufferer. Mr. McCrory, aged 50 years, was terribly crushed about the lungs and cannot live. Mrs. McCrory, aged 45, is severely hurt about the head and shoulders and probably will not recover. Claude McCrory, aged 18, is painfully cut about the head and body, but will recover. Miss Wattle, aged 17, sustained severe cuts about the head and is not expected to survive. Henry, aged 15, suffers injuries about the head and spine and is not expected to live. Sallie, age 12, was mashed across the chest so badly that her injuries are expected to prove fatal. The little girl was pinned under a heavy rafter and it was necessary to cut the timber away from her with an axe to rescue her.

Dr. Busey was a sufferer at Jones' Mill. His drug store in which he had taken refuge was toppled over like a house of cards and he was caught in the debris.

Dr. G. H. Harper at Manistee, suffers a broken shoulder blade and a dislocated hip. He had taken refuge in his office and had no more than entered the building than the cyclone struck it, splintering the structure. Miss Annie Lambert, who was driving a buggy along the street in front of the office, leaped from the vehicle and ran into Dr. Harper's office just in time to be caught by the falling debris. She was rendered unconscious. Yesterday she recovered partially, but today it is feared that she will not live.

Jim Bailey, residing between Man-

CONFEREES AGREE UPON SUBSTITUTE

BACK TAX COMMISSION MUDGILL AGREES SOLVED—O'NEAL CONSIDERS WILL

State Tax Commission is abolished. State Board of Equalization is created.

Board is given supervision of tax system of state.

Will act in advisory capacity with the governor.

Authorizing to employ expert assistants to spend at least five days in each county to report on tax conditions.

County Back Tax Commissioner shall devote time exclusively to reporting escapes on taxes and licenses.

Amount of compensation is limited for raises reported by assessors, and is paid out of county general fund.

Members of present State Tax Commission are retained as members of State Board of Equalization. Department is given appropriation of \$50,000.

These are the salient points of a bill prepared by Senator Sprague and suggested by him to the members of the Conference Committee of House and Senate on the Revenue Bill as a substitute for the County Back Tax Commissioner plan which seemed to be the chief bone of contention on the bill. It was unanimously approved by the members of the committee after they had been in session all day Wednesday and a large part of Wednesday night. Governor O'Neal discussed and considered the bill with the committee and took a copy of it for further consideration. The Governor and the committee will meet again Wednesday morning for a final conference. The chief executive has given no intimation of his rejection or approval of the plan.

Whatever the result on this measure, the revenue bill seems safe. While members of the committee would not commit themselves positively on the point, it is understood that the insurance clause, the one provision that has held back the revenue bill so long, is dead and gone forever. Governor O'Neal, in his speech to the delegation of Birmingham business men, practically assured them that he would not insist on this provision.

LAZY LIVER SPOILS

THE DAY'S WORK Don't Let a Torpid Liver Knock You out of a Day's Work—There is a Better Way—Read about it.

A man feels very little like working and a child don't want to go to school when bilious or constipated. If you try calomel to cure you the chances are that you will be so weakened by its after effects that you will be laid up for two or three days more. So we say, "Don't take calomel." We have a perfect substitute for calomel right here in our store, that we can fully guarantee to cure constipation and loosen up the liver just as quickly as calomel, but without any of the bad after-effects of calomel. The name of this tonic is Dodson's Liver-Tonic. It is a pleasant tasting vegetable tonic that mildly stimulates the liver and causes it to work just right to cleanse the body without any danger of salivation. When you try it if you do not say that it is a perfect substitute for calomel, come right in and get your money back. Nix Drug Company, 8

Manistee and Jones' Mill, was badly crushed when his home was demolished by the wind and there is no hope for his recovery. Mrs. Bailey and her two children were seriously injured but all are expected to survive.

DR. DAVIDSON HERE TODAY

Dr. W. L. Davidson the well known chautauqua manager arrived in the city today and is meeting old friends. The object of Dr. Davidson's visit is to aid the Southeast Alabama Chautauqua Association in perfecting the plans for the chautauqua assembly which will be held here from the first to the tenth of June.

There was a mass meeting held this afternoon in the Court house for the purpose of arranging plans for the assembly and a full account of it will be given in Thursday's issue of the Eagle.

MRS. YOUNGBLOOD.

Mrs. Youngblood the aged Mother of J. C. Youngblood night yard master in the Coast Line yards, died at the home of her son yesterday evening about 5 o'clock. She was about 75 years of age and her death is said to be due from old age.

The body was taken to Savannah last night and interment was made there today.

NEGRO GOES CRAZY.

Coy Allford a negro farmer living near Columbia was brought to Dothan today and turned over to the officials on account of losing his mind and getting rough around his home. He was brought to Dothan securely tied in ropes by his brother and brother-in-law and the trio attracted quite a lot of attention when they came through town.

T. J. Burdeshaw has gone to Selma, where he will undergo an operation on his back in a few days. He will likely be away from the city for several weeks.

Miss Bera Hodges, who has been ill with fever for some days at the home of her father, D. W. Hodges, northwest of town, is thought to be better today.

D. S. McKinnack, of route 6, was in town last night on business.

Wisconsin has a man in the legislature who has introduced a bill to fine each unmarried woman under 25 years of age, \$5.00. This will be a poor revenue getter, in case the measure should pass, for who ever heard of an unmarried woman over 25?

\$25,000,000 CAPITAL DESTROYED BY FIRE

THE STATE LIBRARY ALREADY CONSUMED. CAUSED BY DEFECTIVE WIRING.

Albany, N. Y., March 29.—The New York State Capitol, erected at a cost of \$25,000,000, caught fire shortly before 3 o'clock this morning and was destroyed. The fire originated in the west end of the great structure on the third floor and the whole side of the building was wrapped in flames with which the firemen were powerless to cope.

The State Library has been destroyed and the great western stairway, which alone cost \$1,000,000, has been badly damaged.

The fire is believed to have been caused by defective wiring in the reference library of the Assembly in the northwest corner of the building. One of the orderlies says a defect was discovered yesterday, which was reported.

The flames, fed by inflammable records and documents of priceless value, spread rapidly and the library was a seething furnace when the firemen arrived.

RECEIVED

A full line of in-door trade mark package goods. All fresh, crisp, dairy and delicious. Guaranteed to meet the requirements of the most discerning tastes, therefore, desirable to the extent of being necessary for all occasions of success.

Uncle's Biscuit, Su Su Snaps, Graham Crackers, Social Tea Biscuit, Nabisco, Crispent Delishy, Camco Biscuit, Swissback Toast, and many other varieties, all National quality.

We have just received a lot of oxfords for men and boys from \$2.50 to \$4.00.

LADIES SLIPPERS FROM \$2.00 TO \$3.00.

We want you to see these shoes as we are willing to risk results after you have seen them. We buy the goods that will wear well as well as look well. We have these in gun metal, pat. leather, plain vici, and cloth.

LET US SHOW YOU.

M. CHERRY

"I Never Keep Him Waiting Now"

"I have plenty of light to dress by, for I am using that wonderful General Electric Mazda Lamp."

"I have found that this new lamp gives twice the light of the ordinary electric incandescent; and it uses less current, too; and the quality of light is infinitely superior to that given by the old style carbon incandescent."

"When I first heard of the Mazda Lamp I was not using electric light, but when the women of this lamp were shown to me, I immediately had my house wired. You will do the same, too, if you take time to have this wonderful lamp demonstrated to you."

Just drop in for a moment today and let us show you why everyone who tries the G-E Mazda Lamp is so enthusiastic in its praise. Your call on us places you under no obligation, and it may be of decided advantage to you.

Wednesday, March 29, 1911

Automobile accidents are happening every day in some sections, but Dothan has been fortunate so far.

The vaudeville people are probable making offers to Mess. Greene and Gaynor, late of Atlanta, by this time.

Tom Watson has pulled down all sorts of criticism on himself, but now he has the Catholics after him in circular form.

Captain Greene, late of Atlanta, says some of the finest people he ever met were in jail. We have suspicioned as much.

It is perfectly wonderful what a little rain and a little sunshine will do for this community, both of which we have before it is too late.

People behave themselves rather natural till their taxes are monkeyed with. You let some changes be made that effects the amount of their taxes and they figure on relieving some public official.

That Geneva and Hartford court house fight is doing mighty little considering that they are so close to Dothan. If that had been a Dothan, or a Houston county affair, the people would have been getting action.

A young physician, 30 years old, when accused by his young wife of having two or three other living wives, none of whom had been divorced, merely showed his surprise by fainting. This happened in Baltimore.

The Gould gal who married the title the other day must be having a snatching time, or is rather backward about filing her papers for a divorce. Things may rock along for a month or two yet, till she comes home on a visit. Then the rumors will start that will develop in reality.

Taft seeing no hope in 1912, has denied Morse and Walsh executive clerkship. The truth of the matter is, the government couldn't get along with its federal prisons if Morse, Walsh, Greene and Gaynor were all turned out at one time. Enough great minds and financiers must be kept on the works to maintain order.

The young bank cashier, who left Camden some months ago about \$5,000 short, has not been heard from till the other day. He was picked up from an infirmary in Mobile, where he was being treated under another name. He had been to Central America, and many other places, but the strange wanderlust brought him back near the scene of his crime.

Dothan is probably well enough off financially for its reputation not to suffer by a report telling how automobiles are being sold here. This town was mighty backward about buying cars, and the other day (towns in this territory had three cars where we had one, when the fever struck the state. The encouraging part of it is, that so far, all who have bought automobiles here are able to buy them, and we don't know of any who had to give a mortgage to get the money.

If the Pensacola Journal thinks that Alabama's legislature is the worst thing that ever happened to a state except the cattle tick, it is badly mistaken. We have found a remedy for the tick, but as yet, nothing has been found that will make the boll weevil strike out and make a living for himself and leave the cotton alone. And another thing, the legislature isn't in session but once in four years, if the people will let it alone and not aggravate it.

THEY NEVER LET UP

The cigarette smoker is always on tap. They never let up on him. He continues to smoke right along, with

all they say against him.

The great New York fire the other day, that resulted in 159 deaths, was started by a cigarette smoker, so it is semi-officially stated.

Just where he threw the lighted stump is not stated, or where the head of the match went when it broke off and exploded. Probably we will never know, but the cigarette smoker is accused of starting the fire that snuffed out in one day more lives than even Demon Rum does in several days' hard work.

COST OF COLDS

The chamber of commerce in Boston took up the matter of "bad colds." This organization didn't call in the help of the health department but went about trying to find out how much a "bad cold" cost each person. From the information they gathered, they figured that each cold costs about \$50, including lost time and doctor bills.

Down in Alabama, where a few people have colds, it's true, we don't appropriate that sum for treatment.

Probably each person might have two or three a season, but about one out of ten ever take anything for them, or ever stop work.

During the worst stages of a cold, a citizen may act a little cross, and hoggish, but outside of the snubs given the family and friends, but little damage is done.

It has been decided that colds are contagious, and are not due so much to exposures to weather.

ABOUT CRITICISM

Coming from some unknown source a writer who signs his article merely "Citizen," wants to know:

"Why is it that the public taxpayers of Dothan do not rise up and strike the solar-plexus blow to this abominable Tommy-rot dopy-bosh about a new power plant," and he adds further: "We hear such a thing rumored, but who has seen anything official?"

"Citizen" could have better served his purpose had he put his name to his article, which would have been given publicity, but for his benefit, we can assure him that the town authorities are in earnest about building a power plant. They are going to put up one to take care of that 20,000 city we are building. Their efforts along the line of preparing for the town's growth will naturally be criticized by some, but they will do in this as they have done by other things in the past. They will do as they please, and listen to no faction or foe. In many things they have done well, but they go down on record as being a bull-headed bunch, but when you have recorded them that, you must also put down the fact that they manage to collect enough revenue to finance the enterprises they suggest.

They haven't mismanaged the town's finances. They have spent several salt barrels of money, but they have things to show for it.

Taken altogether, we have found about as many things to criticize in this administration as any we ever saw, but they manage to keep the public utilities going about as good as any set the town has had.

COST OF DRINK

The Great Bard spoke of sermons in stones. Kansas has found sermons in grocery bills. Wichita, a few years ago, was the Gibraltar of the saloon in Kansas. Its saloons were running years after the Kansas saloon law went into effect. Deals were made at state conventions and nominations secured through promises of open saloons for Wichita. The protest was long coming, but it arrived—and, like many other reform movements of the day, arrived with momentum. A "dry" mayor was elected. Heavy penalties for violation of the law were enacted. The saloons died hard, but the last vestige of them finally passed. Note the result. Before the saloons closed, the bank clearings of Wichita were \$1,200,000 weekly. In three years they had increased to something over three million dollars. The city, instead of going backward, as freely predicted, has steadily grown. A few years ago there were barely ten per cent of the population of Wichita opposed to the saloon. Probably there are not now a very large minority of the population who favor it. One newspaper changed in a single day from pro-saloon to anti-saloon. In six weeks its circulation had increased six thousand copies. In another Kansas community a merchant declares that his collections increased forty per cent shortly after prohibition went into effect. Workmen were paying weekly for insurance. Before the saloons closed forty per cent in arrears. Within a short time after the enforcement of the law, these arrearages had been paid and many were paying in advance.—Collier's Weekly.

WHILE WE ARE KICKING

It is a common thing for people to make complaints against automobile drivers, and most of these complaints are just. But the automobile man has a side that but little is heard from.

Everybody in this county who operates an automobile would appreciate some courteous treatment from a certain class of men.

It is said there are men who will not give any room for an automobile to pass, if they happen to be driving stock that isn't afraid of an automobile. Often, it is said, automobile drivers come up behind some man plodding along in a buggy or wagon, with a mule or a horse that isn't afraid of a cyclone. The horn may toot, and the machinery of the low gear may rear, but never do they look back nor turn to the right or left, but pull straight ahead, giving no room for the automobile to get by. The automobiles is a machine that cannot be pulled down to too low a speed, else it will have to stop dead still, and the driver, who seeing the man ahead refuse to drive a little to one side, is up against it. He may be in a long lane, or on a piece of road that will not admit a machine passing around it, when the wagon or buggy is occupying all of the middle of the road.

The Eagle editor isn't driving any automobile, not yet, but there is no telling when some manufacturer will sell one on an advertising contract, and in case we should be driving one behind the man who wouldn't give part of the road when asked to, we would wait till we could pass. Once ahead, we would turn around and stand in the road till such a careless individual decided to give a part of it.

GLOBE SIGHTS

A man always says fishing is good just before he goes.

To evil minded people a lie rings louder than the truth.

Most people would rather have red hair than to be bald headed.

Candidates and cockleburrs are mighty hard to discourage.

A man's idea of hardship is to have to make a pin do the work of a button.

It's all right to have a good opinion of yourself if you can keep it down.

Riding on a local freight is quicker than walking, but it usually seems a good deal slower.

About the hardest work in the world is to keep from looking bored when you feel that way.

Every woman thinks she could be fashionable if she could go out of town to buy her clothing.

If you must speculate, speculate on the probability of people on Mars, and it won't cost you anything.

An amateur actor frequently equals a professional in nerve, although falling behind in other particulars.

It is stated that the circus trust has abolished the sideshow; another shock you will doubtless be able to withstand.

At best, only a few people will listen to what you have to say, and you can't increase your audience by talking loud.

Another trouble with the story teller is that his tale is apt to cause some other Peter Pindar to spring a chest nut.

When a bachelor takes two girls anywhere, he is henpecked, all right, without the customary preliminary of getting married.

While life is a bit monotonous at times, there is always enough going on to prevent us becoming a canceled postage stamp fan.

When our time comes, we don't want to be killed by a muley cow or a blank cartridge, both of which have been known to result fatally.

Since telegraph operators have generally adopted the typewriter, the public has more time to devote to the picture puzzles and other guessin' contests.

When daughter keeps in touch with all the latest fiction, she is also apt to be the kind of young person who can tell you all about the most modern creations of the soda fount expert.

JAMES BENEFIELD.

James Benefield a farmer died at his home on route five last night of pneumonia. He was 55 years old and was a widower. The funeral will take place today at the Bass cemetery.

QUARTERLY MEETING OF CAMP BARTOW

There will be a quarterly meeting of Camp Bartow held here on Tuesday the fourth day of April, and every member of the camp and other veterans are especially invited to attend.

The members of the United Daughters of the Confederacy are all invited to attend and important business is expected to come up at the meeting which will interest both organizations.

Each of the ladies are requested to bring a lunch for the old veterans, who always appreciate such acts of kindness on such occasions.

VACANT PROPERTY FOR INVESTMENT.

Income from property is derived from rents and the increase in value due to the increase in the population of a city.

Experience has proven that vacant property well located, free from insurance charges, is one of the most valuable classes of investments. The increase in rents on close in property drives people to the ownership of vacant property farther out and therefore brings it into demand.

We offer a lot on the A. C. L. transfer spur tract, 220x392x319, the longest dimension being track frontage, ideal for warehouse, manufacturing site, etc., for \$2000.

Another lot containing 2 1-2 acres fronting East Lafayette St. and the A. and St. A. Bay R. R. right of way at \$1600.

Seven acres fronting South Apple-tree street, 530 feet and the same on Atlanta & St. Andrews Bay railroad, with house for \$2,000.

Lot 500x140 feet on Central of Georgia right of way, half block of Main street, close to business section, 20 business lots at \$200 per lot. One Hundred farms to sale.

What Do Your Clothes Tell About You?

Clothes Ought to Be the Index
of Your Personality.

If you are a business man and have a clear cut mind and orderly habits you will be apt to dress the part. The employee who dresses with neatness and in good taste shows to his sharp-eyed employer that he is a man capable of higher responsibilities, to which he is likely to rise.

Business and better positions often hinge on appearance. You owe yourself an outward appearance in keeping with your inward qualities. We are here ready to give you that desired improvement in appearance.

\$15.00 to \$35.00

Grant Clothing Co.

FOR SALE

Six hundred acres of fine land in southeastern part of the county. One hundred acres open and well improved and 500 acres in yellow long leaf pine. The timber alone will easily bring ten dollars an acre. Improved farm lands in the neighborhood when offered for sale bring from \$15.00 to \$25.00 per acre. If you are hunting a bargain this ought to strike you.

A beautiful home in the town of Laverne for sale, or will trade for property in or near Dothan. Large new house and splendid barn, together with 31 acres of very fertile land, all within the city limits of Laverne, a flourishing little town, the county site of Crenshaw county. Twelve acres of this place made 1000 bushels of corn last year. Place is all fenced with wire and is an ideal location for an up-to-date dairy farm.

An eleven-room hotel at Samson. Large lot with stables and out-houses; located close to the depot. Can give a bargain in this property whether for cash or will trade for farm lands in Houston county or for Dothan property.

If you are interested in a home in Dothan or hunting a good investment in residence property, it will pay you to see my list of city residence property. Or if you are waiting farm property I have farms of any size and at attractive prices; most of them on easy terms.

A Cold, Grippe, then Pneumonia
It is too often the fatal sequence. Foley's Honey and Tar expels the cold, checks the grippe and prevents pneumonia. It is a prompt and reliable cough medicine that contains no narcotics. It is as safe for your children as yourself. Sold by N. H. McCallum. (28)

gerous kidney and bladder trouble resulting from years of railroad work. Geo. E. Bell, 629 Third Street, Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroad work left my kidneys in terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley Kidney Pills to many of my railroad friends." Sold by N. H. McCallum. (28)

A Mother's Safeguard
Foley's Honey and Tar for children. Is best and safest for all colds, coughs, croup, whooping cough and bronchitis. No opiates. Sold by N. H. McCallum. (28)

We have five crates of real nice tomatoes, which will go at bargain. Bonham & Son, phone 463.

A HOPEFUL MESSAGE TO SCALP SUFFERERS AND MEN WHOSE HAIR IS THINNING

Dandruff now—bald later. The same is true of scalp diseases. In fact, baldness is a scalp disease. The trouble with the greasy salves and lotions, the so-called dandruff and scalp cures you have tried so far is that they don't do anything but temporarily relieve the itching and make the dandruff so that it doesn't fall out until it dries out again. Nothing can cure—really cure such troubles but a real scalp medicine that will kill the germ causing dandruff and scalp disease.

Learning from leading fellow druggists throughout America that they had found a whirling cure for dandruff, eczema and all diseases of the skin and scalp, Brown's Drug Store on proving to the laboratories compounding this treatment that it is the most prominent drug store in this city, secured the agency for the remedy. This remedy is ZEMO, the clean, liquid preparation that kills the germ of disease and ZEMO SOAP to wash the scalp of skin clear and clean of the dandruff scale and by its antiseptic qualities soothe and heal.

Sold and guaranteed by druggists everywhere and in Dothan by W. L. Brown.

For Rent—4 room house on East Washington street and four room house on Rose Hill. J. W. Baughman.

CHICHESTER'S PILLS

THE DIAMOND BRAND.
Ladies! Ask Your Druggist for Chichester's Diamond Brand Pills in Red and Gold Metallic Boxes, sealed with Blue Ribbon. Take no other. Buy of your Druggist. Ask for CHICHESTER'S DIAMOND BRAND PILLS, or 25 years known as Best, Strong, Always Reliable.

1910

The Banner Year The Empire.

1910—A year that goes down in the history for the Dothan. The new 1910 business amounts to \$10,514,000.00—proven the banner year for the Empire. A record we are proud of.

This magnificent aim is proof within itself of the good people in "The Company of the South"—and we wish to express our appreciation and assure every policyholder that their interests will always be safe guarded in every possible way.

Empire Life protection is sure times, legal reserve, same conservative company.
